Elmsford Union Free School District
2021-2022 Continuity of Learning Plan
(formerly Reopening Plan)

*Adopted by the EUFSD Board of Education - August 25, 2021*

- Special Education
  - Requirements for Special Education
- English Language Learners
  - Requirements
    - *Federal Guidance
- Staffing and Human Resources
As with last year, the opening of the 2021-2022 school year must be coordinated with clear and common criteria throughout the state. Schools do not have public health experts on staff and therefore, we rely on the valuable guidance we receive from our local health experts to set clear (test data driven) criteria to open for 100% in person learning. This planning process is in coordination with our county health department to ensure that our district is not operating under differing assumptions or operating principles.

The Elmsford Union Free School District’s primary commitment is to the students and families we serve. Our priority must be keeping them safe. When the 2021-2022 school year begins, with 100% in person learning, we will continue to employ our previous years’ COVID-19 layered risk mitigation and the health and safety measures. This revised plan (08/25/2021) defines clear guidance for our schools that intends to ensure that students and employees feel comfortable and safe returning to school campuses. Our plan incorporates recommendations and guidance from the Centers for Disease Control and Prevention (CDC), New York State Education Department (NYSED), and Westchester County Department of Health.

The New York State Education Department and Southern Westchester BOCES COVID-19 planning guidance also helped with the development of this plan. The content of this plan includes a brief background of COVID-19, planning assumptions based on current public health information and understanding, and a series of recommendations for returning to school in the fall. Both the assumptions and recommendations in this plan may change over time as we learn more about COVID-19 and the implications of the pandemic on the educational environment.

The NYSED guidelines recommend that school districts continue to develop plans that address the following areas:

- Communication and Family Engagement
- Health and safety
- Facilities
- Nutrition
- Transportation
- Social-Emotional Well-being
- School Schedules
- Budget and Fiscal
- Attendance and Chronic Absenteeism
- English Language Learners
- Technology and Connectivity
- Teaching and learning
- Special Education
- Bilingual Education and World Languages
- Staffing and Human Resources

While our schools will reopen and operate 100% in person, we continue to plan for a transition to remote learning. Such a decision would be made in consultation with our medical partners, possible guidance from our partnering agencies, and/or stay-at-home orders from the Governor. The level of infection, the community transmission rate and guidance for our local health department will be at the forefront of decision making.

Of course, as with every plan developed, the EUFSD Continuity of Instruction Plan is fluid and may change as necessary based on guidance from the state, CDC, and NYSED and in consideration of our families and our staff. We strongly believe the services described throughout this plan are in the best interests of our students, families, staff, and community.
Guiding Principles
The development of this plan was guided by and grounded in the following guiding principles:

1. Safeguarding the health and safety of students and staff;
2. Providing the opportunity for all students to return to school for the 2021-2022 school year;
3. Monitoring schools, students, and staff. When necessary, modifying plans to appropriately contain COVID-19 spread;
4. Emphasizing equity, access, and support to the students and communities that are emerging from any trauma associated;
5. Fostering strong two-way communication with partners, such as families, educators, and staff;
6. Factoring into decision making the challenges to the physical safety, social emotional well-being, and the mental health needs of our students; and
7. Considering and supporting diverse needs in our schools as we provide education is essential.

Communication and Family Engagement
Throughout the development of this plan our district subcommittees engaged with school stakeholders and community members (e.g., administrators, faculty, staff, students, parents/legal guardians of students, local health departments, local health care providers, and affiliated organizations, such as collective bargaining units, alumni, and/or community-based groups). Throughout the process, the plan will be communicated through updates on our website at eufsd.org/reopening.

Moreover, students, parents or legal guardians of students, staff, and visitors will be informed of applicable instructions about entering and exiting the school buildings, training, signage, and a consistent means to provide our school community with information. The information will be communicated through our website, email system, ConnectEd voice and/or email messages, and Talking Points, and/or social media groups or posts (Facebook, Instagram, Twitter, Flickr, to name a few).

The EUFSD will communicate best practices through the posting of signs in highly visible locations (e.g., school entrances, restrooms, district offices) that promote everyday protective measures and describe how to stop the spread of germs (such as by properly washing hands and properly wearing a cloth face covering). Each school will include announcements on reducing the spread of COVID-19 on PA systems during the daily announcements. The EUFSD will also encourage messages (for example, videos) on TV screens through each school building about behaviors that prevent the spread of COVID-19. The district will also communicate with staff and families (such as on school websites, in emails, and on school social media accounts).

Communication Goals
1. To encourage all students, faculty, staff, and visitors through verbal and written communication (e.g., signage) to adhere to NYSED, CDC, and DoH guidance regarding the use of acceptable face coverings - a face mask covering the nose and mouth, when social distance cannot be maintained.
2. To provide regular updates about health and safety, scheduling, and all other information faculty, staff and families should be aware of.
3. To provide information to families through a wide array of platforms including mail, email, telephone calls, text messaging, social media and website postings.
4. To provide information on how families can access technology and receive technical support to assist with utilization and maintenance of equipment

Clear messaging will be prepared and consistently communicated before re-entry, on the first day, during the first week, throughout the first month, and continuously throughout the year. Minimum monthly communication will provide information on the following topics:

- Who to contact with questions, concerns or suggestions. Empower people to make a positive difference and communicate the expectation for them to do so.
- The facts as we currently know them (NYSDOH, CDC).
- The importance of social distancing, monitoring symptoms of COVID-19 and when to stay home.
- Set protocols for entrance (screening) and the review process for staff calling in sick. Constant reminders for staff to stay home if they feel sick.
- Encourage and implement social distancing in bathrooms, break rooms, hallways, etc. Installing social distancing markers on the floors, etc.
- Practice proper hand hygiene. Staff is allowed to use hand sanitizer, but hand washing with soap and water for at least 20 seconds is still more effective. Hand sanitizer works best on clean hands.
- Encourage and practice proper respiratory etiquette (i.e., coughing or sneezing into your elbow if a tissue is not available).
- Encouraging personal responsibility for yourself and your work area.
- Educating the school community on district policies/procedures, including how to properly wear and dispose of a face mask/respirator.

**Health and Safety**

The EUFSD Continuity of Learning plan consists of guidance from the CDC, as well as other health and science-based institutions. The district will follow the guidance from these institutions to all extents practical. Some considerations include:

- General Readiness Assessment
- Daily/Weekly Readiness Assessment
- Preparing for if Someone Gets Sick
- Special Considerations and Resources

Our school administrators will review and complete the general readiness assessment while working with state, local, or federal officials when making initial preparations to promote healthy behaviors, environments, and operations that reduce the spread of COVID-19. The daily/weekly readiness assessment can be used to monitor recommended practices. The planning tools will help school administrators and staff prepare to respond if someone gets sick and to identify special considerations specific to our school community. The implementation of these practices will be guided by what is feasible, practical, acceptable, and tailored to the needs of the EUFSD community.

- COVID-19 is mostly spread by respiratory droplets released when people talk, cough, or sneeze. It is thought that the virus may spread to hands from a contaminated surface and then to the nose or mouth, causing infection. Therefore, personal prevention practices (such as [handwashing](#), [staying home when sick](#)) and environmental ([cleaning and disinfection](#)) are important principles that are covered in this document. Fortunately, there are a number of actions school administrators can take to help lower the risk of COVID-19 exposure and spread during school sessions and activities.
The EUFSD will encourage staff and students to cover coughs and sneezes with a tissue. Used tissues should be thrown in the trash and hands washed immediately with soap and water for at least 20 seconds.

**EUFSD Promoting Behaviors that Reduce Spread**

**Health Checks**

The EUFSD will provide resources to educate parents/guardians and staff members regarding the careful observation of symptoms of COVID-19 and although no longer recommended by the CDC, health screening will continue to be conducted by anyone in our schools each morning before coming into the school. Any student or staff member with a fever of 100°F or greater and/or symptoms of possible COVID-19 virus infection should not be present in school. The Centers for Disease Control and Prevention (CDC) keeps an up-to-date list of symptoms of Coronavirus on its website. Screening by the parent/guardian prior to school will be required through an application that will ask parents to acknowledge that required temperature checks and symptom screening was performed prior to arrival at school.

The health screening reminders may be communicated weekly using the following:
- TalkingPoints app
- Email
- NERIC App reporting: [https://entry.neric.org/eufsd](https://entry.neric.org/eufsd)

**Cloth Face Coverings** will be required indoors and will be reinforced throughout each day. Training will be made available to staff and students about the proper use of cloth face coverings. The EUFSD recognizes that face coverings may be challenging for students (especially younger students) to wear in all-day settings such as school. However, we require the wearing of face coverings by staff and students (particularly older students) as feasible, and are most essential in times when physical distancing is not possible. The district will also provide training and reminders about touching their face covering and to wash their hands frequently. Information will be provided by the district to staff, students, and students’ families on proper use, removal, and washing of cloth face coverings.

- **Note:** Cloth face coverings should not be placed on:
  - Children younger than 2 years old
  - Anyone who has trouble breathing or is unconscious
  - Anyone who is incapacitated or otherwise unable to remove the cloth face covering without assistance

The district will reinforce that wearing Cloth face coverings is meant to protect other people in case the wearer is unknowingly infected but does not have symptoms.

**Handwashing** is one of the best ways to protect oneself and their family from getting sick. The EUFSD will provide training for staff and students so they may learn when and how one should wash their hands to stay healthy. Moreover, our education series will include training on how germs spread. Handwashing can keep a person healthy and prevent the spread of respiratory and diarrheal infections from one person to the next.

Germs can spread from other people or surfaces when someone:
- Touches their eyes, nose, and mouth with unwashed hands
• Prepare or eat food and drinks with unwashed hands
• Touch a contaminated surface or objects
• Blow their nose, cough, or sneeze into hands and then touch other people’s hands or common objects

The EUFSD will also provide educational training for students and staff on key times to wash hands. The trainings will include helping oneself and their loved ones stay healthy by washing their hands often, especially during key times when it is likely to get and spread germs:
• Before, during, and after preparing food
• Before eating food
• Before and after caring for someone at home who is sick with vomiting or diarrhea
• Before and after treating a cut or wound
• After using the restroom
• After blowing their nose, coughing, or sneezing
• After touching garbage

The EUFSD will train staff and students to follow five steps to wash hands the right way:
1. Wet hands with clean, running water (warm or cold), turn off the tap, and apply soap.
2. Lather hands by rubbing them together with the soap. Lather the backs of hands, between fingers, and under nails.
3. Scrub hands for at least 20 seconds. Need a timer? Hum the “Happy Birthday” song from beginning to end twice.
4. Rinse hands well under clean, running water.
5. Dry hands using a clean towel or air dry them.

While it is common knowledge that washing hands with soap and water is the best way to get rid of germs in most situations, the EUFSD will train staff and students what to do if soap and water are not readily available. Training will be made available on the effective use of an alcohol-based hand sanitizer that contains at least 60% alcohol, which will be made available in dispensers throughout our school buildings.

**Staying Home when Appropriate** is a best practice in keeping our school community safe. The EUFSD will educate our school community about when a person should stay home and when they can return to school. We will actively encourage employees and students who are sick or who have recently had close contact with a person with COVID-19 to stay home. The district will suspend perfect attendance awards indefinitely.

We will ensure that our school community is aware of the following guiding principles related to COVID-19:

- Staff and students should stay home if they have tested positive for or are showing COVID-19 symptoms.
- Staff and students who have recently had close contact with a person with COVID-19 should also stay home and monitor their health.

- CDC’s criteria can help inform when employees should return to work:
  - If they have been sick with COVID-19
  - If they have recently had close contact with a person with COVID-19

**Cleaning and disinfecting** frequently touched surfaces (e.g., playground equipment, door handles, sink handles, drinking fountains) within the school and on school buses at least daily or between use as much as possible. Use of shared objects (e.g., gym or
physical education equipment, art supplies, toys, games) should be limited when possible, or cleaned between use.

Social Distancing
- All individuals on Elmsford UFSD premises must maintain social distancing and face covering when social distancing cannot be maintained.
- Proper social distancing, as defined by the CDC, will be followed in all public indoor areas. In isolated offices or large meeting spaces, the individuals may remove their face covering. However in common areas, such as breakrooms, hallways or bathrooms, the face covering must be worn.
- Tightly confined spaces will be occupied by only one individual at a time, unless all occupants are wearing face coverings.
- Designated areas for pick-ups and deliveries will be established, limiting contact to the extent possible.

Visitors
- All visitors must be wearing proper face covering prior to entering any building and it must be worn at all times while in indoor common areas.
- All visitors check in at the respective location of our schools for temperature screening and to fill out the COVID-19 CHECK-IN SCREENING. The visitors must sign in with their identification through the Raptor system for a visitor badge. This will indicate to all other Security locations that the visitor has been screened.
- All visitors must sign in and out at the main entrance of each building stating their destination at that building for contact tracing. All visitors should be accompanied by a staff member.
- Should a visitor become ill while on campus, they must alert the staff member they are visiting to report the issue and then immediately seek medical attention.
- At the end of each day, the receptionist/designee must scan the sign-in/out documents.

Vendors
- All vendors must be wearing proper face covering prior to entering any building and it must be worn at all times in common areas and when social distance cannot be maintained.
- All vendors must report to the Main Office of each school first for temperature screening and to fill out the COVID-19 CHECK-IN SCREENING. The vendors must sign in with their identification through the Raptor system for a visitor badge.
- All vendors must sign in and out at the main entrance of each building stating their destination at that building for contact tracing. All vendors should be accompanied by a staff member.
- Should a vendor become ill while on campus, they must alert the staff member they’re visiting to report the issue and then immediately seek medical attention.

Suspect or Confirmed COVID Cases

Emergency Response
Students and staff with symptoms of illness must be sent to the health office. A school nurse (Registered Professional Nurse, RN) is available to assess individuals as chronic conditions such as asthma and allergies or chronic gastrointestinal conditions may present the same symptoms as COVID-19 but are neither contagious nor pose a public health threat. Proper PPE will be required anytime a nurse may be in contact with a potential COVID-19 patient.

Isolation
Students suspected of having COVID-19 awaiting transport home by the parent/guardian will be isolated in a room or area separate from others, with a supervising adult present utilizing appropriate PPE. Multiple students suspected of COVID-19 may also be in this isolation room. If they cannot be isolated in a separate room from others, facemasks (e.g., cloth or surgical mask) will be provided to the student if the ill person can tolerate wearing it and does not have difficulty breathing, to prevent the possible transmission of the virus to others while waiting for transportation home. Students should be escorted from the isolation area to the parent/guardian. The parent or guardian will be instructed to call their health care provider, or if they do not have a health care provider, to follow up with a local clinic or urgent care center. Other considerations include:

- Opening outside doors and windows to increase air circulation in the area;
- Clean and disinfect all areas used by the person suspected or confirmed to have COVID-19, such as offices, classrooms, bathrooms, lockers, and common areas.
- Individuals without close or proximate contact with the person suspected or confirmed to have COVID-19 can return to the area and resume school activities immediately after cleaning and disinfection.

Notification
The NYS and/or Westchester County Health Departments will be notified immediately upon being informed of any positive COVID-19 diagnostic test result by an individual in school facilities or on school grounds, including students, faculty, staff and visitors. The district will follow the guidance of the departments of health on matters related to a potential positive COVID-19 case.

Contact Tracing
*Public Health Officials assume the task of contact tracing, once notified.* To ensure the school district and its employees comply with contact tracing and disinfection requirements, the EUFSD will do the following:

- Have a plan for cleaning, disinfection, and notifying Public Health, in the event of a positive case. In the case of an employee testing positive for COVID-19, CDC guidelines will be followed regarding cleaning and disinfecting your building or facility if someone is sick.
- Open outside doors and windows to increase air circulation in the area.
- Clean and disinfect all areas used by the person who is sick, such as offices, bathrooms, common areas, shared electronic equipment like tablets, touch screens, keyboards, remote controls, and copier machines.
- Vacuum the space if needed. Use a vacuum equipped with a high-efficiency particulate air (HEPA) filter, if available.
- Consider temporarily turning off room fans and the central HVAC system that services the room or space, so that particles that escape from vacuuming will not circulate throughout the facility.
- Workers without close contact with the person who is sick may be permitted to return to work immediately after disinfection.

Return to School after Illness
The EUFSD has established protocols and procedures, in consultation with the local health department(s), about the requirements for determining when individuals, particularly students, who screened positive for COVID-19 symptoms can return to the in-person learning environment at school. This protocol includes:

1. Documentation from a health care provider following evaluation
2. Negative COVID-19 diagnostic test result
3. Symptom resolution, or if COVID-19 positive, release from isolation

The district will refer to CDC, NYSDoH, and local health department guidance regarding protocols and policies for faculty and staff seeking to return to work after a suspected or confirmed case of COVID-19 or after the faculty or staff member had close or proximate contact with a person with COVID-19.

The district requires that individuals who were exposed to the COVID-19 virus, and are unvaccinated, complete the quarantine period. They may return to in-person attendance if they have not developed symptoms during the quarantine period. The discharge of an individual from quarantine and return to school will be conducted in coordination with the local health department.

Closure Considerations
When a person has been identified (confirmed) or suspected to be COVID-19 positive; the process the EUFSD may include:

- Having school administrators collaborate and coordinate with local health officials to make school closure and large event cancellation decisions.
- Establish a plan to close schools again for physical attendance of students, if necessary, based on public health guidance and in coordination with the Westchester County DOH. Establishing a decision-making tree at the district level.
- Develop a plan for continuity of education, medical and social services, and meal programs and establish alternate mechanisms for these to continue.
- Implement as needed short-term closure procedures regardless of community spread if an infected person has been in a school building. If this happens, CDC recommends the following procedures:
  - Closing off areas used by ill person(s) and locking off area(s), signage can also be used to ensure no one enters the area. Do not use the area(s) until cleaning and disinfection has taken place.
  - Opening outside doors and windows to increase air circulation in the area.
  - Cleaning staff should clean and disinfect all areas (e.g., offices, bathrooms, and common areas) used by the ill person(s), focusing especially on frequently touched surfaces.
  - Communicating as soon as possible with staff, parents, and students.
- Using local DoH guidance/procedures for when someone tests positive.
  - In consultation with the local DoH, a school official may consider whether school closure is warranted and period of time (prior to re-opening) based on the risk level within the specific community as determined by the local DoH.
  - In accordance with guidance for quarantine at home after close contact, the classroom or office where the COVID-19-positive individual was based will typically need to close temporarily as students or staff quarantine.
  - Additional close contacts at school outside of a classroom should also quarantine at home.
- Closing of schools could be a regional decision.

Facilities
The EUFSD will support healthy hygiene behaviors by providing adequate supplies, including soap, hand sanitizer with at least 60 percent alcohol (for staff and older children who can safely use hand sanitizer), paper towels, tissues, disinfectant wipes, cloth face coverings (as feasible) and no-touch trash cans throughout our schools.

Examples of frequently touched surfaces and objects that will need routine disinfection following reopening are:

- tables
- doorknobs
- light switches
- countertops
- handles
- desks
- phones
- keyboards
- toilets
- faucets and sinks, and
- touch screens

The EUFSD will check and maintain its ventilation systems to ensure that they operate properly. Teachers and school staff will be encouraged to increase circulation of outdoor air as much as possible, for example by opening windows and doors.

Our drinking fountains will be maintained, cleaned, and sanitized, but the district will also encourage staff and students to bring their own water to minimize use and touching of water fountains.

Nurse Stations/Offices
- All students and staff are required to wear appropriate face coverings.
  - N95 Respirator use for nurses should be limited to situations of suspected COVID-19
  - Nurses must receive proper training and fitment of N95 Respirators prior to use
- Where applicable, nurse stations have been reconfigured to:
  - Maintain social distancing of no less than 6ft.
  - Create “sick” and “well” zones.
    - Students that receive daily medication should be treated separately from students presenting with symptoms of illness.
    - Current CDC Guidance recommends the use of spacers/valved-holding chambers and an MDI instead of nebulizer delivered asthma medication when feasible, to reduce the chance or aerosolization and transmission of COVID. If a nebulizer treatment must occur, the treatment should be conducted in a separate isolated space with adequate fresh air circulation.
  - Physical separation will be achieved by utilizing:
    - Individual exam rooms
    - Polycarbonate barriers
    - Retractable dividing curtain walls.
- Isolation Room/s
  - Individuals presenting with symptoms representative of COVID-19 should be immediately isolated to reduce risk of transmission.
  - A separate room will be utilized where applicable.
Isolation Rooms

- Where applicable, separate, independent room/s with a door in close proximity to the exterior will be utilized for quarantining individuals who present with symptoms representative of COVID-19.
- Where excess space is not available, Nurse stations will be equipped with dividing curtains allowing for both a physical divide and at minimum 6ft of separation.
- These rooms have been identified in each building
  - Carl L. Dixson - Room#205
  - Alice E. Grady Elementary School - Room #203
  - Alexander Hamilton Junior/Senior High School - Room #104

Break Rooms and Lunch Rooms

- Breakroom use is discontinued if social distancing cannot be maintained when consuming food or drink.
- Staff are advised to take their lunch and breaks in their private offices or classrooms; in their vehicles or outside throughout the campus.
- Staggered break schedules may be utilized to assist with separation concerns.
- If staff wish to take breaks together they must do such in a large space or outside, where social distancing can occur.
- Amenities that are handled with high contact frequency, such as water coolers, coffee makers, and bulk snacks will be replaced with alternatives where possible.

Copier Rooms/Areas

- Congregating in copier rooms/areas is discouraged.
- Cleaning supplies will be provided at copier stations.
- Staff are encouraged to wipe down touch surfaces post and prior use and use Google Classroom whenever possible.

Elevators

- Elevators will be frequently disinfected.

Restrooms

- Automatic hand dryer use will be discontinued and replaced with touchless paper towel dispensers.
- Touchless water fixtures will be installed where applicable.

Nutrition

The EUFSD will encourage students and staff to bring their own meals as feasible. The district will work with Aramark, its food service provider, to prepare and serve meals. During this planning, our food service provider will adhere to the safety of children with food allergies. The district expects that our food services provider staff use disposable food service items (e.g., utensils, dishes). If disposable items are not feasible or desirable, Aramark will be asked to ensure that all non-disposable food service items are handled with gloves and washed with dish soap and hot water or in a dishwasher. Aramark is expected to train all food service staff on effective practices.
for **washing their hands** after removing their gloves or after directly handling used food service items.

**Transportation**

As was outlined in the Health and Safety section of the NYSED guidance document, all parents/guardians will be required to ensure their child/children are not experiencing any signs and symptoms of COVID-19 and do not have a fever of 100 degrees or more prior to them boarding their method of transportation to school. Students must wear a mask on a school bus if they are physically able. Students who are unable to medically tolerate a face covering, including students where such covering would impair their physical health or mental health, will not be subject to the required use of a face covering.

The EUFSD will work closely with our transportation service provider, White Plains Bus Company, to ensure that students practice safe practices and that each bus is cleaned in accordance with the guidance:

- Ensure that all passengers and drivers wear face coverings, unless they are physically unable to do so.
- Students who do not have masks will be provided one.
- Students should be reminded of the bus rules, like, to not eat or drink on the school bus, which would require them to remove their mask.
- Reminding students to avoid touching surfaces often touched by others.
- Practice routine cleaning and disinfection of frequently touched surfaces, such as railings, doors, and seats.
- Since hand sanitizer is not permitted on school buses, hand sanitizer will be placed at entrances when students enter the building.

**Training (Office Personnel, Drivers, Mechanics, Aides)**

The following will be provided to the bus drivers by the district’s transportation company, National Express (White Plains Bus Company):

- Hazard Communication/Right-To-Know (annual)
- Personal Protective Equipment (PPE)
- Exposure Control/Bloodborne Pathogen (BBP)
- COVID Awareness
  - New cleaning Protocols (buses, transportation center)
  - Daily Screenings
  - Handwashing
  - Face Covering (sizing, use, wear & care)
  - Personal Health and Hygiene

**Routing**

Although we will be 100% in person attendance for the opening of the 2021-2022 school year, the EUFSD developed multiple routing scenarios for administration to analyze different instructional scheduling options:

- Cohort Grouping
- Alternating days
- Hybrid schedules – in-person learning at school buildings, other grade levels virtual remote learning
- Utilize computerized routing program (Transfinder) to provide different routing scenarios

13
Limit rotation of substitute drivers and aides if possible
Limit student movement between bus routes
If possible, mirror AM and PM routes, so bus riders are the same group each day

Loading/Unloading & Pickup/Drop-off
If necessary, dismissal times will be staggered to best suit building needs and to promote social distancing
Adjustments will be made by buildings:
- For unloading and entry, and loading and departure
- Route timing which will be affected by delayed loading/unloading processes
- Arrival and departure activities shall be supervised to ensure social distancing, where appropriate

Social-Emotional Well-being
Prior to the COVID-19 pandemic, the EUFSD partnered with the Westchester County Department of Health and Westchester Jewish Community Services to offer a certification program in Mental Health First Aid for our district crisis team members. The district’s crisis team consists of our administrators, nurses, school psychologists, counselors, and social workers. During this intensive program, our crisis team learned how to apply the Mental Health First Aid action plan in a variety of situations, including when someone is experiencing:
- Panic attacks
- Suicidal thoughts or behaviors
- Nonsuicidal self-injury
- Acute psychosis (e.g., hallucinations or delusions)
- Overdose or withdrawal from alcohol or drug use
- Reaction to a traumatic event

The training further provided our crisis intervention staff with a deeper understanding of recovery and resiliency – the belief that individuals experiencing these challenges can and do get better, and use their strengths to stay well.

The EUFSD will ensure that the district-wide and building-level comprehensive developmental school counseling program plan is current and reflects the needs of our school community following the COVID-19 experiences. The plan will be developed under the direction of our school counselors and will be reviewed and discussed with our crisis intervention team, as well as our satellite mental health providers and student assistance counselor. The EUFSD crisis intervention team will also inform the school counseling program plan, as necessary.

The EUFSD will implement a restorative practice process throughout our district. Restorative practices are processes and approaches designed to build community and meaningful relationships, develop shared values, help students better understand their behavior, how it impacts themselves and others, and ultimately to use that self- and social awareness to repair damage caused to relationships as a result of inappropriate behavior. It focuses on strategies and skills such as understanding and managing one’s emotions and behavior, negotiating conflict
constructively, building empathy, making constructive decisions about personal behavior, and realistically evaluating the consequences of one’s behavior.

**Mental Health Support and Guidance from Elmsford School District Counselors**

More information about mental health support for our EUFSD community is available on our [Parent Resources](#) webpages.

The mental health clinicians and school counselors at the EUFSD are committed to helping all community members through this time. Rest assured that the Elmsford Union Free School District, like everyone else in our community, is fully committed to the well-being of all. We will keep you informed as we remain responsive to the needs of our students, their families, and our staff. They are available via email if you would like to set up a time to talk. Please see their contact information below.

We are all here to support one another during these challenging times. With so many people participating in social distancing measures, you may feel more isolated but know that you are not alone. Be mindful that what you are feeling is real and normal. Emotions, feelings, and beliefs may run the gamut at this time.

The Child Mind Institute outlined the following tips for families. Maintain and create a basic routine during the week — for example, regular sleep, wake and mealtimes. Create a visual daily planner checklist with a time frame to establish structure and self-monitoring skills. Remember, physical activity is essential! Create a physical education period of the day with various activities such as taking a walk, riding a bike, going for a hike. Make sure to stay social within the confines of social distancing. Video conference family and friends, utilize technology to play games with distant friends and family remotely. Take this opportunity to enjoy new found time with your family and work on home-based projects that you have previously not had time to initiate or complete.

**Make time for yourself right now:** Much of the personal time that was part of daily routines — commutes, time alone at home or the store, social times with friends — is not available for folks with kids at home. Without it, we have to be intentional about creating space to recharge and decompress. This approach may look like taking a shower or a bath, walking around the block alone (or with your dog), or designating time to read or rest after the kids have gone to bed.

**Prioritize health choices:** The added stress and lack of structure we’re all experiencing right now can make it easy to slip into habits that feel good at the moment but can be detrimental in the long term. “Make sure you’re eating properly, try to get enough sleep (but not too much!), and create a routine that includes physical activity,” recommends Jill Emanuele, Ph.D., a clinical psychologist at the Child Mind Institute. This approach doesn’t mean pressuring yourself to get into tip-top shape, or not eating ice cream or viewing your favorite shows. It does mean being thoughtful and intentional about how you’re treating yourself and your body.

**Be realistic:** “Perfectionism and the coronavirus don’t mix,” says David Anderson, Ph.D., a clinical psychologist at the Child Mind Institute. “It’s time to be exceedingly realistic, both at work and as a parent.” Avoid burnout by setting realistic expectations and giving yourself grace if you can’t meet them. Practice forgiveness and self-compassion,” says Dr. Anderson. Parents should remind themselves that these are unprecedented times. “There is no playbook for this. Remember, you’re doing your best during a very difficult time. Cut yourself some slack.”
**Set boundaries:** Anxiety is rampant right now. With so much worry and uncertainty floating around, it can be easy to absorb other people’s fears and concerns without realizing it. If you have a friend or family member who’s in the habit of sending worst-case scenario news or is prone to sending anxiety-provoked text messages, practice a little emotional distancing. Let them know you sympathize but that you’re taking a break from worrying news or hit the Do Not Disturb button. You can always reconnect when things are calmer.

**Reconnect with things you enjoy:** Think proactively of things you can do with this enforced time at home. Get back in touch with hobbies or activities you enjoy but rarely have time for, or make a choice to learn a new skill. Maybe there’s a knitting project you’ve always wanted to try, but you’ve been too busy. Or you’ve meant to learn how to needlepoint. Maybe you love jigsaw puzzles, but with rushing between work and home and caring for kids, it’s been years since you had the time to do one. If young children make solo activities unrealistic, seek out activities you can enjoy together, like baking bread or making art. Finally, remember, being kind to yourself will not only help you stay calm during this challenging time, but it will also help ensure that you have the bandwidth you need to take good care of your family. When you’re running on fumes, caring for others can tax your already depleted resources to the breaking point. But when you prioritize your needs, you’re filling the tank, emotionally and physically, and that means you’ll be in a position to offer comfort and care to others when they need it most.

**Contacting EUFSD Clinical Staff**
The mental health clinicians and school counselors at the Elmsford Union Free School District are committed to helping you through this time. We are available via email if you would like to set up a time to talk.

*Immediate emergency including self-harm/harm to others – Please call 911.*

**School Schedules**
**Carl L. Dixson Primary School**

**In-Person Model**

**Arrival**
- 8:40 am (No early drop-off)
- Faculty & Staff strategically in place to ensure safety protocol
- Students move directly to classes

**Dismissal**
- 3:20 pm (Dismiss from classrooms)
- Faculty & Staff in place strategically to ensure safety protocol
- Dismissal directly from classes to destination (Parent/Bus)

**Lunch/Recess**
- 2-4 Lunch Periods (10:45, 11:15, 11:45, 12:15)
- 2 Classes per period (Recess & Lunch)

**Efforts to Reduce Class Size**
- Use of Non-Traditional Spaces for instructional groups - Outdoor lawns, Gym, Musical Library, Art Room
- Use of Teaching Assistants to create smaller instructional groups

- All In-School sessions will be streamed live for students learning virtually at home and recorded for students unable to attend

**Alice E. Grady Elementary School**

**In-Person Model**

**Arrival**
- 8:20 am (No early drop-off)
- Faculty & Staff strategically in place to ensure safety protocol
- Students move directly to classes

**Dismissal**
- 2:50 pm (Dismiss from classrooms)
- Faculty & Staff in place strategically to ensure safety protocol
- Dismissal directly from classes to destination (Parent/Bus)

**Lunch/Recess**
● 3 lunch periods (10:18, 11:13, 12:08)
● 3 recess periods (10:43, 11:38, 12:33)

Efforts to Reduce Class Size
● Use of Non-Traditional Spaces for instructional groups - Outdoor lawns, Gym, Cafeteria, Library, Art Room

Alexander Hamilton High School

In-Person Model
● 7th and 8th graders - The middle school is already in cohorts and stays with the same students most of the time, except for world languages and specials.
● 9th grade is split into two separate cohorts based on math and humanities placement. Students will again stay together and sections will be formed based on class schedule.
● Students in earlier grades will be kept together in the same classroom as much as possible.
● 10-12 will follow their schedules as assigned.
● Staggered transition times will be considered and, if necessary, embedded into schedules to allow groups of students to move through the hallways at interval times. This will ensure less students are in the hallways at all times.

VIRTUAL LESSON DESIGN (ONLY WHEN REQUIRED)
Elmsford Union Free School District teachers are now delivering new content and skills to students. Teachers will inform students of the intended learning targets. Similar to in-class instruction, our
coherent lesson design considers the following: learning standards, topic, practice, application, collaboration with peers, and student demonstration of learning.

**District Platforms/Technology**
Teachers will use Google Classroom/Google Meet/Zoom/See-Saw for lesson delivery and office hours/conferring times. Only district-approved digital tools that are familiar to our students will be used. In the unlikely event that an invited or uninvited guest exhibits disruptive behavior during a live session, the teacher is expected to disconnect that individual and report the incident to a building principal. School Administration will reach out to families regarding such incidents.

**Daily Lessons**
This Distance Learning Plan leverages the power of the teacher recorded video. Teachers may record themselves explaining directions, reviewing material, or teaching new concepts. Some teachers may elect to provide real-time or synchronous instruction. However, some students may not be able to participate in synchronous sessions. Therefore, teachers may record and post all video sessions so that students who miss the live viewing may replay it at another time.

**Conferring With Students**
In addition to video-recorded mini-lessons, teachers will interact directly with their students using tools for synchronous (real-time) class meetings, conferring, and/or office hours. Students can expect to meet their teachers at least once a week for each subject.

**Classwork/Assignments**
Workload and assignments may be adjusted at the teacher’s discretion. Teachers may also adjust the delivery and due dates of larger projects or assignments. School closures can often compromise the amount of instructional time in a class, therefore some topics may have to be abridged and/or eliminated from a subject or course. Students are expected to check their distance learning platform (SeeSaw or Google Classroom) as often as possible, preferably at least once per school day. Please reach out to your child’s teacher for considerations regarding due dates.

**Parent Communication**
Parent communication is encouraged. Please feel free to reach out to your student’s teachers and/or counselors with any questions or concerns. Parents/students can expect regular communication from teachers through the Parent Portal, Google Classroom, Talking Points or separate correspondence. Teachers will communicate with a parent/guardian of any student that is having difficulty in handing in assignments or responding to a teacher's correspondence. Email addresses for teachers/staff can be found on eufsd.org. Look for the “Contact Us” icon under “Quick Links”.

**Interscholastic Athletics**
As a result of the COVID19 pandemic, the EUFSD will continue to monitor and consider the recommendations made by the CDC, NYS and local DoH, as well as Section One Athletics, as it relates to interscholastic athletics schedules, competitions, and spectator guidance.
Digital Tools and Resources

The EUFSD Digital System consists of instructional tools that will be used and will be available by grade level, course, and/or site.

Many of our district approved websites are accessible through the Clever Portal. From the district website, scroll down and click on Tech Links, then click on students. Look for the Clever Portal link (second on the list). The Clever Portal offers one click access to online resources that the district has subscribed to. Once logged into Clever, students will not have to enter separate passwords for each resource.

Additional parent resources can be found on our district’s Learning From Home Resource Page.

### Expectations for Students – Remote Instruction (When Required)

The District’s Code of Conduct will apply equally in the virtual classroom as it does in the traditional classroom. The law of defamation is no different in the virtual classroom than in a classroom housed in a school building. Students who participate in a live video/audio conference offered by their teachers must know the expectations regarding their behavior and participation during this discourse. Below is an “Etiquette Guide” that can help with this effort. Please note that the recording, modification, or distribution of video and still images of teachers or students is not permitted by students. The administration will enforce Elmsford Union Free School District Code of Conduct if a student violates the above expectations. If an invited or
uninvited guest exhibits disruptive behavior during a live session, the teacher will disconnect that person or individual and report the incident to the building principal.

**Suggested Student Etiquette Guide for Remote Instruction/Virtual Classroom:**

**Muting:** When you enter the video conferencing format, be sure to mute yourself. When not speaking, make sure to mute yourself. This action will prevent inadvertent noises, such as coughs, rattling papers, or chair squeaks, from interrupting others.

**Questions:** When you have a question, type in the textbox and wait for your teacher to call on you. When you ask a question or request information, direct it to a specific individual, and allow time for slightly delayed responses because the system may experience slight delays.

**Contributing:** When you have something to add to the discussion, but it is not your turn, use the chat feature in the right-hand corner. When possible, avoid interrupting others when they are speaking. Google Meet has a voice-activated switching feature to move the camera to the active speaker automatically. Interrupting another speaker may confuse the voice activation. It is better if you have Grid View on when you have many students in a Google Meet.

**Your Turn:** Wait for the teacher to call on you to unmute yourself. Only one student shall contribute/talk at a time. Establish an understanding among participants of when and how to interrupt. For example, have people use the raise hand emoji that is in the top left of the screen.

**Where to Look:** Look into the camera when you are talking.

**Stay Attentive:** Try your best to stay focused on the teacher or other students who are speaking.

**Camera On/Off:** Students are expected to attend virtual sessions with the camera on.

**Where to Go with Questions**
The table below provides some of the most common types of questions that may be anticipated and indicates who to contact for help. Email is the best way to reach staff.

Budget and Fiscal

Throughout the COVID-19 pandemic our school community faced much uncertainty. Another area of uncertainty is the fiscal outlook for public schools throughout the state. As we plan for the future, we will continue to monitor and keep abreast of the extent to which the financial impact will improve or worsen for our district, how long the economic recovery will last, and which areas will be most severely impacted.

The following budget and fiscal considerations will be examined:

- School District Fiscal Preparedness
- 2020-21 Enacted State Budget
- Pandemic Adjustment and CARES Act Funds
- Potential Further Aid Reductions
- 180 Day Calendar and Attendance Reporting for State Aid Purposes
- Impact of Low Attendance on State Aid
- Flexibility in Non-NYSED-Governed Activities - i.e.) Use of reserve funds, transportation, PPE costs, etc.
- Flexibility for Budgetary Transfers
- Tax Collection Processes
**Attendance and Chronic Absenteeism**

Student engagement is an important part of the educational process. We aim to improve student attendance by having every student engaged daily during the in person learning experience.

- Student attendance will be recorded daily.
- During these challenging times, the development of positive school relationships may be a lifeline for students disconnected from school. To that end, we will continue outreach to any student and/or family who is absent for extended periods of time and provide support, when needed.
- Phone calls to families by our support staff and/or administrators to offer resources and assess student/family needs.

**Technology and Connectivity**

The EUFSD will provide students and teachers with access to the extent practicable to:

- Provide a Chromebook for their exclusive use to complete school work.
- Assist with securing a consistent, reliable access to high-speed internet.
- In the most difficult examples, the EUFSD will work to provide full support internet access (e.g., a hotspot).

**Teaching and Learning**

The EUFSD will provide 180 days of instruction each school year to their students. As per NYSED guidance, instructional days will be counted for programs that are delivered in-person, remotely, or through a hybrid model. The school calendar typically includes one or more staff-only days before students arrive at school. Acknowledging the challenges that our teachers and staff have faced this spring delivering remote instruction under stressful circumstances, the district will focus these in-service days on providing support to staff in the areas of social-emotional health and technology integration. Additionally, our staff is taking great care to address individual student learning needs through enrichment and/or intervention strategies.

These days will also be utilized for student orientation. This time will allow small groups of students to meet with their new teacher and begin to establish the relationship necessary for a successful school year.

As we enter the new school year, teachers will be encouraged to spend time building relationships, supporting students with the transition back to school, and teaching social distancing etiquette at developmentally appropriate levels.

Assessing student learning needs will be critical. Formative assessment before a unit of instruction to assess student understanding of pre-requisite skills will be common practice. Programs are being developed for credit recovery, Saturday Academy, tutoring, and enrichment opportunities.

Acknowledging that the typical content in a given grade level or course may need to be adjusted, content will be prioritized to ensure that students receive instruction for the prioritized learning standards, key understandings, and skills necessary for students’ success in future study.

Grading practices will follow a standards-based framework designed to provide direct feedback regarding students’ mastery of course content.
Special Education
Our Special Education teachers and related service providers will make every effort to ensure that students with disabilities have equal access to the same opportunities as students without disabilities, including the provision of a free appropriate public education. To the greatest extent possible, students with IEPs will receive support and services that will address their individually identified needs.

Related Services
Related service providers (speech, counseling, occupational therapy, physical therapy, teacher of the hearing impaired, teacher of the visually impaired, behaviorist) will develop remote support for distance learning plans to meet the needs of individual students on their caseload. To the maximum extent possible, related service providers who are providing IEP mandated services will continue to support all students in their progress toward goals. The delivery of service will be tailored to the family and student’s needs and may include email/phone consultation, video sessions, instructional videos, etc. Related service providers will structure communication plans to work with students and parents. Please do not hesitate to reach out to your child’s case manager or related service provider if you have questions.

CPSE/CSE/504 Meetings
While schools remain closed, we will be using video conferencing for CSE/CPSE/Section 504 meetings. This platform will provide the opportunity for parents/guardians to connect via video, voice, or both. Families will be receiving an email from the Special Education office that will include a link and phone number to connect to the meeting on the scheduled date and time. Families can connect for video, or use the call-in number to the conference call. All of the information to join will be in a link provided in the email. Families are encouraged to contact case managers with any questions.

Additional Considerations
Ultimately, it is the responsibility of the special education teacher and/or related service provider to develop and provide special education supports for students with recognized needs under federal and state mandates. Appropriate and effective teaching needs to be in place to ensure that those responsible for the online or blended learning programs have the support and direction necessary to ensure that the programs meet the regulatory, fiscal, compliance, and managerial requirements that the organization adheres to for other programmatic offerings.

Professional Development
Professionals that support students in online or blended learning environments often have a great deal to learn about the most effective way to support student learning with technology. Increasing curricular demands, as well as increases in technological capabilities, often stretch the professional development needs and capabilities of professionals. This is further exacerbated when students’ specific needs, codified in individualized programming requirements, add increased demands for professional development support for faculty and staff working in online and blended learning projects.

One of the greatest challenges for effective professional development revolves around the infancy of the research base related to effective programming for students impacted with disabilities within online and blended learning environments. The best things that educators can do is to apply what we currently know about effective online education, effective special education programs and services, quality instruction and methodology, and combine those into a plan that is tailored to meet the individual learning and educational needs of the student impacted by disabilities.
**Requirements for Special Education**

Prepare with the understanding that there has been no waiver of requirements under IDEA for provision of a free and appropriate public education (FAPE) in the least restrictive environment (LRE). During COVID-19 school closures, schools were required to provide FAPE consistent with the need to protect the health and safety of students, as well as those individuals providing education, specialized instruction, and related services to these students. Schools may not have been able to provide all services in the same manner that they are typically provided. Federal disability law allows for flexibility in determining how to meet the individualized needs of students receiving special education services.

The Individuals with Disabilities Education Act (IDEA) requires the individualized education program (IEP), for each student, to describe when periodic reports on the progress the child is making toward meeting the annual goals will be provided to the parents. This is recorded in the “Progress Reporting” section of the IEP document. Regardless of how school is operating, teachers are still required to provide specialized instruction to students in order for them to meet the goals and objectives on their IEP’s. Teachers and service providers must continue to collect data, whether in-person or remotely, and use these data to monitor each student’s progress toward the annual goals and to evaluate the effectiveness of the student’s special education services. Determining student progress is necessary for understanding the student’s present levels of academic achievement, and functional performance, and for determining whether, and to what extent, school closures have disrupted the student’s learning.

Communication with families of students is important. If we are in-person, accessibility to the student is normal with health and safety guidelines in place. If we are all virtual, time should be allocated to meet with your students to ensure that they are engaged in their education as well as assist them with educational needs that arise. Additionally, communication is needed with the other teachers of these students to ensure that accommodations and modifications have been provided to the students according to their IEP’s. For our high need students, the use of social stories, visual cues, and other developmental strategies should be used to reinforce these new concepts and protocols. The school psychologist can be utilized for assistance in this area. If we are in a blended scenario, it is equally important to continue to address the individual needs of your students both in front of you as well as virtually. If we are in a virtual or blended scenario, it will be important to provide live instruction to the special education students. This can be done either individually or in a group. If doing “group” instruction virtually, please obtain permission from parents and ensure they understand that other people may be present while their child is receiving their services/programs.

Virtual related services will be made available to students in a schedule worked out with families as done in the prior school year. Parent consent forms will need to be obtained and logs will need to be maintained documenting the services provided. For those receiving services from providers outside of the Elmsford UFSD (i.e., BOCES), those providers will also need to obtain parent consent forms and will be documenting their interactions with students. For consultation services, those providers will maintain contact with the classroom teacher as directed by the IEP.

The components of a Resource Room, ICT or Consultant Teacher Model should include the following during in-person, virtual instruction/hybrid model:

- Attendance of student
- Subject support
- Group instruction
- Individual remediation (as needed)
- Skills development
- Testing and Classroom Accommodations as directed by IEP
Student Evaluations
Students who are awaiting identification due to school closing should be evaluated immediately, once schools open for in-person learning, and their initial meetings scheduled by the end of September/beginning of October. If parents are electing to keep their child home and want to continue with their referral, arrangements need to be made for the student to be evaluated in person. For students with disabilities who needed re-evaluations from the previous school year and due to school closure were not able to receive their re-evaluations, these students, provided they are in-school, should be the second priority for evaluation. These evaluations should be completed by the end of October/beginning of November.

For information about meaningful parent engagement regarding the provision of services to a child to meet the requirements of the IDEA, visit the Communication/Family and Community Engagement section [https://www.eufsd.org/domain/343](https://www.eufsd.org/domain/343) of our website reopening plan.

English Language Learners
While returning to school will present challenges for all, English As A New Language Learners (ENL) may experience these challenges to a greater extent than their peers, as they transition back to a school setting from remote learning and continue to develop their English language proficiency concurrently while learning grade-level academic content. To mitigate these challenges, schools must make every effort to provide support to ENL students to allow them to access academic content as well as providing them with their supplemental language instruction program. English language development is a part of universal instruction. It is paramount that grade level content be provided with adequate scaffolds and supports, so that ENL students may access the grade level content being provided in the classroom while developing language proficiency.

Requirements
- Understand that like all other students, ENL students are entitled to FAPE. The Civil Rights Act of 1964, Title IV, the Equal Educational Opportunities Act (1974) and the Elementary and Secondary Education Act (1965) provide guidance on the services to which ENL students are entitled. ENL students must have access to the general education curriculum as well as to a supplemental language instruction education program. During school closures due to COVID-19, ENL students continue to be entitled to receive their supplemental ENL instructional program in addition to their general education program of mainstream, grade-level and content-area instruction. Such language instructional education programs may consist of a range of services, including bilingual education, English as a New Language (ENL), Sheltered Instruction and others. When returning to school buildings, language instruction education programs must continue.
- Comply with the requirement that eligible students in bilingual mandated districts are offered bilingual education programs. During COVID-19, school districts that are mandated to provide bilingual education remain required to offer a bilingual program to eligible students who have opted into the program. While program implementation may be altered during COVID-19 as compared to traditional in-building schooling, students in bilingual programs are still entitled to receive native language support as part of their school’s designated bilingual program model. As with other language instruction education programs, when returning to traditional schooling, bilingual programs must continue.
• Communicate with parents and guardians that have limited proficiency in English in a language they understand as required by Title III of the Elementary and Secondary Education Act. As during traditional schooling, communications during school closures due to COVID-19 may be provided through translation and/or interpretation.

• Provide ENL students, who are also identified as students with disabilities, supports for their ENL needs, as well as supports for their disabilities. During COVID-19, these dually identified students must continue to receive these supports. As in times with traditional schooling, dually identified students should have their language needs represented in their annual meetings about their IEP.

**Guidance for ENL Staff**

• Consider that flexibility may be necessary for the implementation of specific supplemental language instruction education programs, but these programs must continue to be provided to ENL students during remote learning. (*see Federal Guidance at the end of this document).

• Establish systems for ongoing collaboration between Bilingual and TESOL teachers, ENL support providers and grade-level and content-area teachers. Ensure that mainstream teachers embed accessibility tools, such as scaffolds, explicit vocabulary instruction and differentiated supports into their grade-level and content-area instruction.

• Develop and maintain ongoing communication with families of ENL students regarding remote learning and returning to their school building. Create procedures for supporting translation and interpretation for families with limited English proficiency regarding remote learning, instructional methods and returning to school.

• Encourage the maintenance and development of students’ home and/or native language, whether during remote learning or when learning returns to school buildings. Develop a school culture where multilingualism is seen as a rich asset that contributes to the school and broader communities. Initiatives such as the Seal of Biliteracy and the establishment of dual language bilingual programs offer strengths-based, asset-oriented perspectives on multilingualism.

• Offer web-based, on-demand professional learning on how to serve ENL students effectively through online, high-quality professional learning (i.e. HV-RBERN).

• Establish a process for carrying out the required procedures for potential English learners and identified English learners including: − ensuring adherence to the statewide identification procedures (i.e., Home Language Survey, English language proficiency screener); − continuing to provide parental notifications (i.e., ENL identification letter, ENL continuation of services letter, ENL exit letter); − adhering to annual English language proficiency assessment requirements; − offering translation and/or interpretation to parents/guardians with limited English proficiency.

• Attend to the SEL needs of English learners, understanding that ENL students may have unique, individual needs from each other and from their non-ENL peers.

**Family Partnerships and Communication**

Information needs to be provided to families of ELLs in a language they understand in order to ensure that they can actively participate in their child’s education. This can be effectively done through the use of Talking Points or Google Translate when referring to our website link entitled Distance Learning under Resources. Documents on that page can be translated to a parent’s native language.

*Federal Guidance*

The Department of Education recognizes that physical school closures may affect how services are provided to ENL students. ENL services may be provided virtually online, or via telephone. The Department of Education understands that, during this national emergency, schools may not be able to provide all services in the same manner they are typically provided.
The Department of Education recommends that during remote learning, ENL teachers continue to provide instruction to students who were previously in self-contained ENL classrooms or in pull-out models. For classes in which ENL students participate in mainstream classrooms, with both a content teacher and an ENL teacher, the ENL teacher should continue to collaborate with the content teacher to ensure that the appropriate supports and accommodations are provided to the ENL students in that class during remote learning.

During distance learning, consider practices such as remote instruction, telephone calls, and virtual meetings on digital platforms for delivering services. Additionally, consider online options for data tracking, documentation of services, supports, and accommodations provided. Furthermore, you may also consider providing instructional packets or assigning projects and written assignments to ENL students.

For information about meaningful parent engagement regarding the provision of services to a child to meet the requirements of the IDEA, visit the Communication/Family and Community Engagement section [https://www.eufsd.org/domain/343](https://www.eufsd.org/domain/343) of our website reopening plan.

**Staffing and Human Resources**

**Teacher and Principal Evaluation System**
All teachers and principals will continue to be evaluated pursuant to the district’s approved APPR plan.

**Certification, Incidental Teaching and Substitute Teaching**
All teachers will hold valid and appropriate certificates for teaching assignment, except where otherwise allowable under the Commissioner’s regulations (e.g., incidental teaching) or education law.

**Student Teachers**
Student teachers from NYSED registered college or university programs can serve under the supervision of fully certified teachers in the Elmsford UFSD. Student teachers will follow all of the social distancing, mask wearing, health status reporting, and other COVID-19 procedures that the teachers follow. At no time will a student teacher be used as a teacher of record.
