

# Art

The Art room has been bustling with creativity!! We've been working on a variety of projects... Students learned about the life and artwork of Frida Kahlo. Amazing portraits of Frida were created!! Other students learned how to draw facial features that are in proportion and they made self-portraits in the style of Kahlo. 3-dimensional turtles were sculpted and painted in the style of the Oaxacan wood carvings we learned about, and other classes have been celebrating Fall by making decorative tree collages. Another group of students worked collaboratively to make incredible, large, paintings to look like Mexican woven blankets/rugs. As always your children's artwork exceeds my expectations! It is my pleasure to work with them!

\* Artwork is on display throughout the Grady building!

Frida Kahlo was born in 1907 in Mexico. She was a very famous artist who painted many pictures of herself. She was very brave and strong. She was also a very good friend to many people. She died in 1955.
