

# 6th Grade December News Letter

## ACCOMPLISHMENTS

The month of December is a time to reflect on the small celebrations and moments of cheer that we can share with our students.

In ELA, our star readers and writers are enjoying the book *Roll of Thunder Hear My Cry*. We have become familiar with instances of Social Injustice. Through learning about story elements, understanding characters and learning about plot structure, our readers are learning about the ways in which individuals work to fight against injustice as well as other strategies to teach others as to the harms of Injustice.

In science, our scientists have mastered how to measure and observe physical properties and changes of matter. They have been participating in experiments that utilize scientific tools that measure mass, volume, and density.

In math, our mathematicians have mastered how to graph and identify points on a coordinate plane. We have also worked on comparing, identifying, and ordering rational and irrational numbers.

In social studies, our historians have been exploring different river valley civilizations in old Mesopotamia, focusing mainly on Iraq, Egypt, and India. They have spent the past couple of weeks collecting notes to create a Mesopotamia study guide.

## REMINDERS

- The new marking period has started this week
- Report cards will be sent home
- Have students come to school with a charged Chromebook
- Have students come to school with a reusable water bottle
