

October in music has been jam packed with many cultural enrichment activities as well as seasonal music and meaningful practice in music literacy skills. Upper grades have worked on creating rhythms composed out of 2 beat patterns to accompany music of South America and focused on a musician, Juan Esquivel. Grades K-4 all enjoyed an assortment of songs and games in the Spanish language and they have learned grade-appropriate literacy skills related to musical contour (ascending/descending, high/low and placement on the musical staff).
